**September 5, 2021**

**Teacher's Day** in India is celebrated on 5th September on the birth date of India's **first Vice President, Dr Sarvepalli Radhakrishnan** who was a respected philosopher and a great teacher.

Our school (**MSSSP**) also celebrated **Teacher's Day** to appreciate the teachers. Students greeted them with warm wishes. Different **videos** were made by **students** on account of Teacher's Day.

This day recognises and values the hard work and dedication of teachers. In schools across the country various activities are conducted to celebrate and applaud the teachers. The most common way of celebrating is that senior students take over the responsibility of teaching for the day.

Students showed their gratitude in their own way.

**Teachers** play a very important role in shaping our life. They tell us the difference between what is right and what is wrong. We shall always be indebted towards them. Teachers can never be replaced, so we should always be grateful to them.
