**Class 11** students visited **Chandigarh** on the 17th of December 2022. The students sang songs and enjoyed the whole way to **Rock Garden, Chandigarh**.

There they enjoyed the look of intricate art made of waste that we usually throw away. The artist saw creative potential in **broken bangles**,

headed towards the **Sukhna Lake** which is like a heaven for the tourists. The scenic beauty was really admirable. After sometime they headed for lunch to the **hotel Clarion Inn**.

After having a sumptuous lunch students went to **Gurdwara Nada Sahib ji**. The trip ended after paying obeisance at the Gurudwara Sahib.

**ceramic cups, plates etc.**

After having fun at Rock Garden students

It was indeed a funfilled day with great experience to learn how to make best out of waste.
