**8 December, 2022**

On the 30th of November 2022 MSSSP's **Grade 9th** students visited the **Botanical Gardens at Punjabi University, Patiala.**

Mr. Manish Kumar (Assistant Professor) and his team explained about different species of Angiosperms and Gymnosperms.

Students also learnt about sacred plants, different varieties of cactus, tropical and subtropical plants, and their accurate environmental conditions for survival.

It was a wonderful day out of the class room for experiential learning.
