September 20, 2025

“Peace begins with a smile,” and on 20 September 2025, the middle schoolers of Modern Senior Secondary School, Patiala, experienced the true meaning of this thought during the International Peace Day celebration.

The students participated in an engaging session that encouraged them to look within, understanding that kindness, empathy, patience,

and respect are the building blocks of peace.

They reflected on how small gestures in daily life can create a ripple effect, spreading positivity far and wide. The session inspired every young mind to embrace harmony, not just in the world around them, but within themselves too. It was a heartfelt reminder that even the tiniest step toward peace can make a big difference.
