August 18, 2026

As part of the **Thematic Value Education Programme**, students of Grades I–V of the **Primary Wing, Modern Senior Secondary School, Patiala**, participated enthusiastically in

plants judiciously.

Grade II students made colourful water-droplet cut-outs and wrote personal pledges to use water wisely.

activities centred on water conservation and responsible usage. The initiative encouraged students to understand that every drop is precious and that small, mindful actions can make a meaningful difference.

Grade I students learnt practical ways to conserve water, such as turning off taps, reporting leaks, using buckets instead of hoses and watering

Students of Grades III–V expressed their awareness through creative **“Save Water”** slogans, spreading the message of conservation.

The activities fostered environmental responsibility and encouraged students to adopt sustainable habits, inspiring them to become responsible citizens committed to protecting this precious natural resource.
